

JANIS

Regina George is not cool! She's a stinkmouth glitter monster!

DAMIAN

Janis hates Regina because when we were in eighth grade—

JANIS

Damian! Shall we not?! Caddy, take their offer. And then come back and tell us every stupid moron thing they say.

CADY

Like spy on them? Isn't that bad?

JANIS

Caddy, we're your friends. Would we ask you to do something bad?

CADY

(thinks, then)

Okay. Do you have a pink shirt I can borrow?

JANIS

No.

DAMIAN

Yaasss. What shade?

(#11 – PINK SHIRT begins.)

INTERIOR MS. NORBURY'S CLASSROOM, THE NEXT DAY

(MS. NORBURY takes attendance.)

START

MS. NORBURY

Okay guys, this is AP Calculus. Monday, Wednesday, Friday. Let me know if you are here... Acquino, Sonja.

SONJA

Here.

MS. NORBURY

Cocco, Glenn?

GLENN

Here.

MS. NORBURY

Heron, Cady?

(CADY enters.)

CADY

Here! Sorry I'm late.

MS. NORBURY

Oman, Shane?

SHANE

Here when you need me, baby.

MS. NORBURY

Nope. Samuels, Aaron?

AARON

Here.

(then, to CADY)

Hi, I'm Aaron.

(CADY looks into his eyes and is instantaneously love struck.)

CADY

Me Cady.

MS. NORBURY

Okay, let's dive right in, friends. Chapter One, "Limits and Their Properties." What the heck are limits, you say? If I write out the equation...

(MS. NORBURY writes "lim (x+1)x->2" on her overhead projector...)

"The limit as 'X' approaches two of 'X' plus one," the function is what we're taking the limit of. I don't expect you to know yet—

CADY

"X" equals three.

MS. NORBURY

That's right, actually. Let's try another one.

(MS. NORBURY continues to write on the overhead projector.)

AARON

Wow. Are you trying to make the rest of us feel dumb?

CADY

I'm not trying to. It's just happening.

(#12 – STUPID WITH LOVE begins.)

END
